Profile Summary

I am a Fullstack Developer with over 5 years of experience specializing in building scalable and responsive web applications. I have a strong background in both frontend and backend technologies, working across various industries, including financial services. My expertise lies in Angular, React, Node.js, NestJS, and I am passionate about optimizing user experiences through modern web technologies. I am actively seeking opportunities in North America, Europe, and other international markets, and I am eager to bring my experience to your team.

Professional Experience

Digital Factory - Falabella Financiero
Fullstack Developer
Santiago, Chile — May 2019 - Present

- Led the development of digital transformation projects, improving customer engagement through the implementation of responsive and scalable web solutions.
- Developed both frontend and backend solutions using Angular, Node.js, and NestJS, ensuring high scalability with SEO optimization and E2E Automated Tests.
- Collaborated with multidisciplinary teams to build secure and efficient CI/CD pipelines with GitLab and Docker.

Tsyacom
